

The [Local Enforcement Plan](#) seeks to promote effective planning enforcement whilst maintaining public confidence in the planning system.

Our aims are:

1. To contribute to a fair, transparent and effective planning system by resolving planning breaches and by using enforcement powers in cases where unauthorised development unacceptably affects public amenity or the existing use of land or buildings
2. To take proactive action to improve the environment of the area
3. To monitor development under way to make sure it fully complies with the terms of any planning permission
